Thinstuff
XP/VS Terminal Server

Thinstuff XP/VS Terminal Server - NEW! Windows 7 and Windows Server 2008 R2 support!
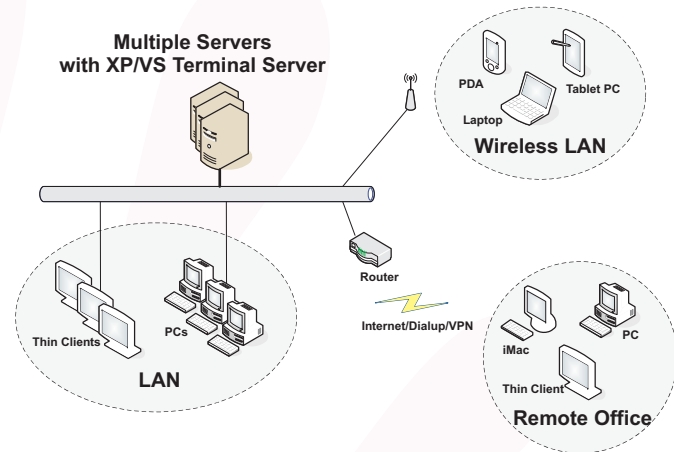

Thinstuff´s XP/VS Terminal Server transforms your Windows Workstation or Server into a full-blown Terminal Server.

Turn your Windows workstation into a Terminal Server!

Adding Thinstuff´s XP/VS Terminal Server to a Windows workstation enables you to establish an unlimited number of RDP connections to it. This turns your Windows workstation into a complete Terminal Server and enables cost effective Server Based Computing.

Cost savings in your IT infrastructure

Deployment of Thinstuff´s XP/VS Terminal Server enables cost savings in licensing, hardware, service and support.

Multiple Servers with XP/VS Terminal Server

PDA · Tablet PC · Laptop · **Wireless LAN**

Router · Internet/Dialup/VPN

Thin Clients · PCs · **LAN**

iMac · PC · Thin Client · **Remote Office**

Your Windows becomes a full-blown Terminal Server ...
... with XP/VS Terminal Server

Thinstuff XP/VS Terminal Server provides even more!

Additional features which make XP/VS Terminal Server a really complete Terminal Server:

- **TSX USB** - Usage of any USB device over the network (USB 1.1. and 2.0)
- **TSX RemoteApp (Seamless Windows):** Remote Programs offer seamless integration of specific applications into the client´s desktop just as if they were local, instead of publishing the complete user desktop
- **TSX Session Broker (Load Balancing):** In multiple Terminal Server environments, incoming RDP sessions are automatically distributed among the Terminal Servers of a load balancing cluster
- **Enhanced Application Compatibility:** Compatibility Mode for older applications which are not Terminal Server enabled (e.g. change user /install, ini file mapping, registry mapping, etc.)
- **Active Directory Domain membership of XP/VS Terminal Server computers**
- **Remote Control (Shadowing):** Mirroring of RDP sessions for support purposes

The following features are currently under development:

- **TSX Application Control:** Access to specific applications can be restricted to designated groups or users
- **TSX Gateway (RDP VPN Solution):** Encrypted transmission of the RDP protocol through SSL secured HTTPS connections on port 443 over the internet
- **TSX Web Access (Web Portal):** Access to published applications through a web portal
